

We're DigitalProduce, Inc.
We grow great ideas

As a digital **trans-media**
marketing agency, **DPI** creates,
markets and supports campaigns
deployed from the **TV to**
the PC.

We target the consumer where they work, where they play and how they live.

We **pollinate brand messaging** across the

spectrum of today's ever expanding (and ever consolidating) media outlets.

We nurture the growing **1 to 1 relationships** companies must develop with their audience.

To consolidate the **trans-media** messaging that companies must perform in today's market, **DPI creatively develops** new **concepts, processes & media-models** that exceed expectations, reduce marketing expenses and **communicate more organically** with your consumers.

A woman with long dark hair, wearing a white lab coat, stands in a garden-like setting. She is holding a small trowel in her right hand and a potted plant in her left. A pile of dark soil is on the ground to her left. The background is a plain, light-colored wall.

DPI can help **grow** your
business in the following ways:

- Direct Marketing and Promotions
- TV, Corporate, or Music Videos
- Brand/Identity Creation and Support
- Print and Ad Design
- Internet Application Development
- Web Design and Flash Programming
- DVD Authoring
- CD-Rom Authoring

DPI's team has helped many companies,

including **Intel, MGM,**

Universal, Virgin,

Microsoft, Mobil,

Chevron, EMI,

Gap & Amnesty

International.

We can help you, too.
